Case No. 8:13-cv-01791-AG-DFM
CLASS ACTION

JOINT RULE 26(f) REPORT

Conference: March 17, 2014
Time: 9:00 a.m.
Court: 10D
Judge: Hon. Andrew J. Guilford

1 Pursuant to Fed. R. Civ. P. 26(f), Local Rule 26-1, and this Court's Order re
2 Early Meeting of Parties and Scheduling Conference (Dkt. No. 25), Plaintiffs
3 Constance Sims and Sammy Rodriguez, and Defendants Kia Motors America, Inc.
4 and Kia Motors Corporation (collectively, the "Parties") have conferred and
5 respectfully submit this Joint Rule 26(f) Report.

6 I. STATEMENT OF THE CASE

7 *Plaintiffs' Summary:*

8 Plaintiffs bring this class and representative action on behalf of a Class defined
9 as all persons who purchased, leased and/or currently own or lease a Kia vehicle
10 model that (i) has a gas tank that is either not connected to the underside of the vehicle
11 with reinforcing straps or is not protected by a whole-tank shield, or (ii) has a plastic
12 fuel pump service cover that is accessible from the passenger compartment of the car
13 (hereinafter "Defective Vehicles"). Plaintiffs allege that the Defective Vehicles
14 contain gas tanks that are defective and dangerous because:

15 a. The gas tank is located immediately underneath the rear passenger seats
16 and forward of the cargo area and is not sufficiently protected by shields or attached to
17 the underside of the vehicle with reinforcing straps. This increases the risk that the
18 gas tank will shift or dislodge and ignite in a major collision.

19 b. The service cover for the fuel pump is plastic and is located immediately
20 underneath the rear seat cushion. This location, coupled with the use of a plastic
21 instead of a metal fuel pump service cover, increases the likelihood that, in a major
22 collision, fire will penetrate the rear cabin through the plastic service cover like a
23 "blow torch."

24 Plaintiffs allege that these gas tank defects present a significant and
25 unreasonable safety risk exposing Defective Vehicle owners and their passengers to a
26 risk of serious injury or death. Passengers sitting in the rear seats in Defective
27 Vehicles are sitting atop veritable gas bombs that, in a major collision, have the
28

1 propensity to explode and immediately engulf rear occupants in flames. There has
2 been at least one accident in which this nightmare scenario resulted, killing three
3 passengers traveling in a Defective Soul in Texas.

4 Plaintiffs allege that Kia's sale of the Defective Vehicles and failure to disclose
5 the gas tank defects constitute a violation of California's Unfair Competition Law, a
6 violation of California's Consumer Legal Remedies Act, a violation of the California
7 False Advertising Law, breach of the implied warranty of merchantability, and
8 fraudulent concealment.

9 *Defendants' Summary:*

10 Defendants Kia Motors America, Inc. and Kia Motors Corporation (collectively,
11 "Defendants") produce and market the popular Kia Soul, a distinctively designed
12 urban hatchback that debuted with the 2010 model year. To date, Kia has sold over
13 300,000 Soul vehicles in the United States. The Soul has won a number of industry
14 awards and recognitions for its design, safety, and retention of resale value. The Kia
15 Soul complies with all applicable Federal Motor Vehicle Safety Standards required for
16 its sale in the United States.

17 Plaintiffs brought this putative nationwide class action alleging that Defendants
18 misled consumers about the safety and performance of the Kia Soul's fuel system, and
19 that Defendants' purported misrepresentations and non-disclosure of alleged fuel tank
20 defects violated California law. Plaintiffs claim that the fuel tank of the Soul is
21 defective because it is located under the rear passenger seats, is not secured by
22 reinforcing straps or a whole-tank shield, and has a fuel pump service cover made of
23 plastic. The only basis pled in the complaint for the allegation of a product defect is a
24 single car accident involving a Soul that occurred in Fort Worth, Texas in April 2013.
25 Defendants believe that Plaintiffs' allegations do not establish a plausible defect or
26
27
28

1 plead any cognizable injury and have moved to dismiss the complaint on that basis.¹
 2 Should this case proceed to discovery, however, Defendants will prove that the Soul's
 3 fuel tank is not defective and that the Texas accident arose from a unique set of
 4 circumstances having nothing to do with the design of the Soul, which have never
 5 been replicated. Indeed, although they claim that the Soul fuel tank is a "veritable gas
 6 bomb," Plaintiffs do not allege that they have stopped driving their Souls or tried to
 7 sell their vehicles. More to the point, Plaintiffs do not allege that a different fuel tank
 8 design would have prevented the tragic accident in Texas last April. There is simply
 9 no basis for this lawsuit—much less for a nationwide class action.

10 **II. PARTIES**

11 All Defendants have been served with the Second Amended Class Action
 12 Complaint and made their appearance. At this time, the Parties do not anticipate that
 13 additional parties will appear in the case.

14 **III. DISCOVERY PLAN**

15 **A. Initial Disclosures**

16 The Parties propose that the disclosures required by Rule 26(a) be made 30 days
 17 after the Court issues its ruling on Defendants' pending motion to dismiss/and or
 18 strike. At this time, the Parties do not anticipate requesting any changes to the form of
 19 such disclosures.

20 **B. Subjects on Which Discovery May be Needed**

21 Plaintiffs intend to take discovery into, among other things, Defendants'
 22 advertising and marketing programs and warranties; the design of fuel tanks across
 23 various Kia vehicle models; warranty claims and repair experience related to the Kia
 24 fuel tanks; consumer complaints relating to fuel tank movement and fires in Kia
 25 vehicles; Kia's knowledge of the impact that collisions have on its vehicles' fuel

26
 27 ¹ On February 3, 2014, Defendants filed a motion to dismiss and/or strike the
 28 Second Amended Class Action Complaint (Dkt. No. 31) to address a number of fatal
 deficiencies in Plaintiffs' pleadings. The motion is set for hearing on March 17, 2014.

1 tanks; Kia's knowledge of the relevant defects in its vehicles' fuel tanks; the number
2 and identification of individuals or entities that purchased, leased, and/or currently
3 own or lease a Kia vehicle model that (i) has a gas tank that is either not connected to
4 the underside of the vehicle with reinforcing straps or is not protected by a whole-tank
5 shield, or (ii) has a plastic fuel pump service cover that is accessible from the
6 passenger compartment of the car; and Kia's contacts with the State of California and
7 other states.

8 Defendants intend to take discovery into, among other things, advertising and
9 marketing materials allegedly viewed and relied upon by Plaintiffs prior to their
10 purchase of their Kia Souls; Plaintiffs' driving habits and usage of their Kia Souls;
11 Plaintiffs' service and maintenance of their Kia Souls; the circumstances of Plaintiffs'
12 purchases of their Kia Souls; the relationship between Plaintiffs and persons involved
13 in the April 2013 Texas collision; the nature and causes of the Texas collision; and the
14 experiences of putative class members with their Souls, including their purchase and
15 use of the vehicles and their exposure to and reliance on advertising and marketing
16 materials for the Kia Soul.

17 The Parties agree that discovery should not be formally bifurcated or phased,
18 although the Parties intend to focus early discovery on issues related to the class
19 certification motion. The Parties intend to work together to meet this goal and to
20 avoid early discovery on issues not directly related to class certification.

21 The Parties' proposed discovery dates are included in the Proposed Case
22 Schedule set forth immediately below.

23 **C. Discovery of Electronically Stored Information ("ESI")**

24 The Parties have agreed that an ESI protocol is needed. Defendants propose
25 that the relevant provisions of the Federal Rules of Civil Procedure (Rules 26, 33, 34,
26 37, and 45) as well as the Standing E-Discovery Order of this Court control in this
27 proceeding. The Parties will continue to discuss these issues, including whether to
28

1 propose any changes to the Court's Standing E-Discovery Order. Defendants have
2 confirmed that both Kia Motors America, Inc. and Kia Motors Corporation have
3 circulated a written Preservation Notice instructing employees to preserve relevant
4 information related to the 2010-2013 model years Kia Soul and its fuel system.
5 Without waiving any arguments regarding privilege, Defendants will provide
6 Plaintiffs with a list of custodians Defendants have designated as "key" custodians at
7 Kia Motors America, Inc. and Kia Motors Corporation, and subject to considerations
8 of reasonableness and burden, will add additional custodians as necessary. Defendants
9 will seek to obtain the same information from Plaintiffs' counsel.

10 **D. Claims Relating to Privilege and the Confidentiality of Information**

11 The Parties believe that the Court's Standing Protective Order sufficiently
12 addresses (i) the designation of material as confidential, highly confidential – attorney
13 eyes only, and highly confidential – source code; challenges thereto; (ii) access to
14 designated material; (iii) a prosecution bar; (iv) protected material subpoenaed or
15 ordered produced in other litigation; (v) unauthorized disclosure of designated
16 material; (vi) inadvertent production of privileged or otherwise protected material;
17 (vii) filing under seal; and (viii) the handling of designated material after final
18 disposition of the case. At this time, the Parties see no need to alter the provisions
19 contained in the Court's Standing Protective Order.

20 **E. Changes to Limitations on Discovery or other Limitations**

21 At this time, the Parties do not believe that any changes are necessary to the
22 limitations of discovery imposed under the Federal Rules of Civil Procedure or the
23 Local Rules. The Parties have agreed that, as consideration for Kia Motors
24 Corporation's agreement to not assert its rights under the Hague Convention, Kia
25 Motors Corporation ("KMC") is provided an additional 60 days in addition to the time
26 permitted under the Rules to serve Plaintiffs with objections and/or responses to all
27 discovery requests propounded by Plaintiffs; Plaintiffs must provide KMC with a
28

written deposition notice a minimum of 75 days before an agreed upon deposition date; and KMC agrees to produce one Rule 30(b)(6) corporate representative in the United States, but any other deposition of a Rule 30(b)(6) corporate representative, if required, or of any other KMC witness, must take place in Korea.

F. Additional Orders

At this time, the Parties do not anticipate the need for additional orders under Rule 16(b) and (c) and Rule 26(c), with the exception of the Court's Standing Protective Order and an ESI Discovery Protocol.

IV. PROPOSED CASE SCHEDULE

The Parties propose that the Court adopt the following Case Schedule, which includes dates for the disclosure of expert testimony and relevant motion deadlines.

The trial date proposed below is based on the parties' current knowledge. The parties recognize that, in the event any of Plaintiffs' claims is certified and the case proceeds beyond class certification, the period of discovery following certification and the trial date may have to be adjusted depending on the scope of any claims certified.

Event	Day	Date
Initial Disclosures/Fact Discovery May Begin	-	30 days after ruling on MTD
Deadline for Plaintiffs to Identify All Experts on Whom They Will Rely in Support of Class Certification	Fri.	Oct. 17, 2014
Deadline to Serve Any Expert Reports or Declarations on Which Plaintiffs Will Rely in Support of Class Certification	Fri.	Oct. 17, 2014
Deadline for Defendants to Identify All Experts on Whom They Will Rely in Opposition to Class Certification	Mon.	Nov. 17, 2014
Deadline to Serve Any Expert Reports or Declarations on Which Defendants Will Rely in Opposition to Class Certification	Mon.	Nov. 17, 2014
Plaintiffs to File Motion for Class Certification	Mon.	December 1, 2014
Defendants to File Opposition to Motion for Class	Mon.	Feb. 2, 2015

Event	Day	Date
Certification		
Plaintiffs to File Reply in Support of Motion for Class Certification	Mon.	Mar. 2, 2015
Hearing on Motion for Class Certification	Mon.	Mar. 23, 2015
Parties to Exchange List of All Expert Witnesses Expected to Be Called at Trial Pursuant to Rule 26(a)(2)(A)	Wed.	Jun. 03, 2015
Parties May Supplement Their Expert Designations in Response to Other Parties' Designations	Tue.	Jun. 23, 2015
Deadline to Propound Discovery	Wed.	Jun. 10, 2015
Deadline for Parties to Exchange Non-Class Expert Witness Reports	Fri.	Jul. 24, 2015
Discovery Cutoff	Fri.	Aug. 07, 2015
Last Day to File Dispositive Motions	Mon.	Sep. 07, 2015
Last Day to Conduct a Settlement Conference	Fri.	Sep. 25, 2015
Hearing on Dispositive Motions	Mon.	Oct. 05, 2015
Final Pretrial Conference	Mon.	Nov. 02, 2015
Trial Begins	Wed.	Dec. 02, 2015

V. TRIAL

The parties propose that trial begin on or around December 2, 2015. Plaintiffs believe that trial can be completed within 10 trial days. Defendants estimate that trial of the named plaintiffs' individual claims will last 14 trial days. In the event that a class is certified, Defendants may provide a revised trial estimate based on the claims and scope of any class that is certified. Plaintiffs have demanded a jury trial on claims triable to a jury.

VI. SETTLEMENT AND ALTERNATIVE DISPUTE RESOLUTION

The Parties have not had any settlement discussions to date. The Parties agree that it may be too early to engage in meaningful settlement discussions prior to the

1 resolution of Defendants' pending motions and before the Parties have conducted any
2 discovery.

3 The Parties select ADR Procedure No. 3 (private mediation), in accordance with
4 General Order 11-10, § 5.1 and Local Rule 16-15.4. The Parties believe that private
5 mediation should occur near or after the close of discovery, which is August 7, 2015
6 under the Parties' Proposed Schedule.

7 **VII. MANUAL FOR COMPLEX LITIGATION**

8 The parties anticipate that some, but not all, of the class action procedures
9 described in the MANUAL FOR COMPLEX LITIGATION may be useful. But, at this early
10 stage in the litigation, the Parties do not propose the adoption of any particular
11 procedure from the MANUAL.
